

Surgery Consent Form-Canine

Pet _____ Owner _____

Patient ID _____ DOB _____ Age _____ Weight _____

Well Pet Exam - If your pet has not been in to see one of our doctors in the **last 12 months** this is necessary.

Pre-anesthetic Blood Testing

Even though a physical examination will be done before your animal has surgery, disorders of the liver, kidneys or blood, are not detected unless blood testing is done. Abnormalities of any of these may increase anesthetic risk. For these reasons we require pre-anesthetic blood screens.

Intravenous Fluids

Intravenous fluids given during surgery help maintain normal blood pressure and allow rapid administration of drugs should an emergency situation develop. For these reasons we highly recommend this for all pets.

Pets over 7 years old, IV Fluids are required.

_____ **Yes**, I want my pet to have fluids _____ **No**, I do not want my pet to have fluids
(My pet is under 7 years old)

Pregnancy: If my pet is found to be pregnant I **Want / Do not want** her to be spayed anyway.
(Charges will still apply; Anesthesia, Pain meds & Surgery Time)
